Justin Peterson

Software Engineer

justinpeterson.me | jmpeterson132@gmail.com

SKILLS

Interested in senior software engineering roles focused primarily on backend distributed systems. 6+ years of experience building products using mainly Java, MySQL, Kafka, HBase, and ElasticSearch. Some experience in front end development (primarily React) and people management proficiency as well.

EXPERIENCE

HubSpot - *Engineering Lead, Calling Product Group*

June 2016 - PRESENT

- (2020+) Working to level up all aspects of calling (VOIP & Video) throughout HubSpot's product, primarily oriented towards our [Service Hub](#) product line. Managing two Technical Leads and 2-3 ICs while staying a senior technical contributor for my direct team.
- (2018 - 2020) Worked as a Tech Lead through the launch of HubSpot's Conversations product (now a part of the [Service Hub](#) product line). Managed up to 5 direct reports while contributing technically.
- (2016 - 2018) Worked on our edge caching and DDoS protection infrastructure for the [HubSpot CMS](#)

Intuit - *Software Engineering Co-Op, TurboTax*

Winter 2014 - Summer 2015

- Helped to develop subsystems of the "Get to Know Me" flow for the 2014-15 tax year (mainly with React and Node/Express)

Projects + Activities

- Contributor to [JinJava](#), HubSpot's open source templating language
- Former president and service committee lead, [Kappa Delta Rho](#)
- Hobbies: [Amateur game dev](#), cooking, cycling, and [Clojure](#)

Education

Rochester Institute of Technology - *Software Engineering B.S.*

2011 - 2016

- Mentor and committee head, [RIT Society of Software Engineers](#)
